Glades Market Continues 1500-Head Weekly Sales Despite Unseasonable Rain

Wednesday's Market Can Equal Monday's With Existing Facilities

The Monday sale of 1174 head fo cattle with the 341 on Wednesday brings the week's total to 1521 and the local market retains its place at the head of cattle with the 341 on markets in number of animals handled.

The type of cattle which result from the continued excessive rains of the spring do not increase the general average of the prices, though the better type of slaughter animals are about on a par with other cattle areas.

The management announces that the market is tuned up to handle 1200 head of cattle any one day, and it would aid the operation if Wednesday's and Monday's could be more nearly equal in number.

Country Club of the Everglades

The local golf course is in tip top shape now after all the rain which slowed down golf playing for a while. Joe, our pro, says the greens and fairways are in good condition for play and that a large number of golfers from Pahokee are practicing up on their golf technique.

Of course the ladies complain about the heat but in the late afternoons, there is a breeze and nine holes can easily be played.

How many of the golfers remember the old time "get togethers" and pot luck supper at the club? It has been suggested that all the golfers that would like to have a pot luck dinner after playing golf on Sunday, let us hear from you. How about it Pahokee? and local golfers?

Doll Show Draws Many Entries

There is activity galore in the Municipal Park these days, with a total of 291 children registered in the Summer Recreation program sponsored by the Palm Beach County Board of Instruction and the City of Belle Glade.

The personnel for this program are being paid by the Board of Instruction and the City cooperates by furnishing the money for materials used.

An advance program of activities are being planned consistently by the recreational directors in an effort to keep up children's interest and promote wholesome and worthwhile interests at the same time.

The special event sponsored this week was the doll show in which 47 girls and boys partici-

NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

Cadet Ross W. Winne, Jr., son of Mr. and Mrs. Ross W. Winne, Sr., Chosen, Fla., and Frederick D. Stevens, son of Mrs. F. D. Stevens, Sr., 80 East Palm Beach Rd., Belle Glade, both students at University of Florida have arrived at Fort Benning, Ga., to attend a 1954 General Military Science Reserve Officers' Training Corps Summer Camp.

The six-week summer camp at Fort Benning is designed to give practical application to theories taught by ROTC instructors at college-level educational institutions. Particular emphasis will be placed on the development of leadership and the cadet's capability to function effectively in the role of an infantry leader in small unit combat operations, as may be required of any officer regardless of his branch of the US Army.

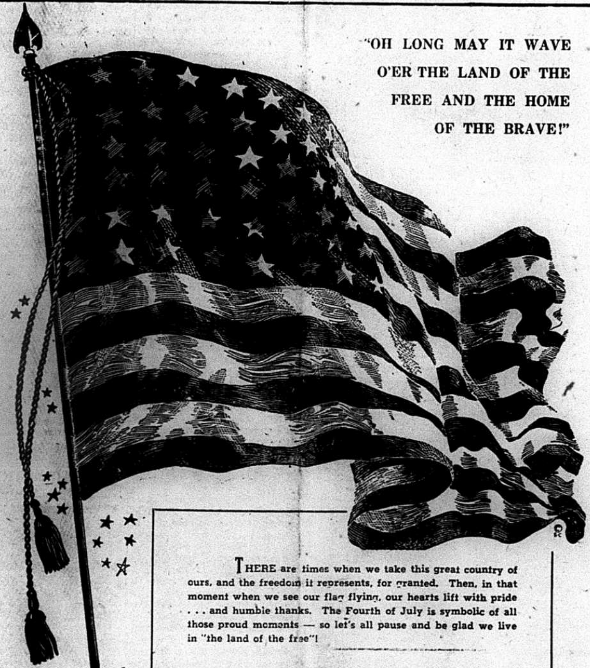

The more than 1400 cadets represent 37 colleges and universities of the Third and Fourth Army areas. Each cadet is striving for a commission in the US Army. Those cadets who have satisfactorily completed four years of college may be commissioned at the end of the camp, the remainder when they have completed their four years of college.

Dear Luther:

I want to thank you again for the Herald. I cannot say in words just what it means to a guy away from home or in the service. To keep up on the news and all the social happenings is a great boost for your moral. As you know that is a must in a soldiers life and even though letters from your parents give you the happenings in your home; there are many things that a mother or father will overlook.

Things haven't changed much since I last wrote to you outside of the seasons of the year, but that is to be expected in the army. I've done some traveling

"OH LONG MAY IT WAVE O'ER THE LAND OF THE FREE AND THE HOME OF THE BRAVE!"

THERE are times when we take this great country of ours, and the freedom it represents, for granted. Then, in that moment when we see our flag flying, our hearts lift with pride . . . and humble thanks. The Fourth of July is symbolic of all those proud moments — so let's all pause and be glad we live in "the land of the free"!

Glades Guard Unit To Leave For Camp

Monday night ended preparation for camp by Company "E" the Glades Guard unit located in Belle Glade. 1 officer and 65 enlisted men will leave July 4th to attend two weeks of intensive field training at Ft. McClellan, Alabama. The unit at this time has more qualified crew served weapons personnel that are fully capable of firing their assigned weapons than they did last year. The unit has qualified all but three men with their individual weapons. The first week of camp will be utilized primarily for the benefit of all new men that have joined the units of the National Guard since last years encampment. The second week of training will be in the field for the purpose of training small units how to perform effectively as a team.

The main body of the Company will leave Belle Glade on the 4th of July by bus and travel to West Palm Beach, where they will then board the train for the trip out of the State. The unit will return by the same means and will arrive at Belle Glade on July 17 about 9 am. At that time all equipment used by the men will be turned in before the men are dismissed. This will enable the men to cut down on the time consumed on drill nights following camp.

Relief For Water Troubles Proposed To County Comm.

Commissioner Foster, from the northern part of the County proposed to the County Commission Monday action to relieve the high water in his part of the County by urging early construction of works proposed by engineers — Canal 17 of the Flood Cotnrol Program.

Earlier another Commissioner had proposed that the areas particularly affected look into the possibilities of self-help.

BEARDSLEY TELLS LIONS OF STATION'S WORK ON CATTLE EXPERIMENTS

Dan Beardsley, a Glades product himself, told the local Lions Club Wednesday of some of the activities of the local Experiment Station in cattle production in the Glades.

Dan explained the four general groups of study at the Station as breeding, feeding, grading and nutrition, and told of the efforts to harmonize the work with Glades facilities and conditions.

Nine head belonging to the Lions are included in a group of current experiments, and while they were discussed, the audience was told that all figures on the progress will be available for distribution after July 8th, when the tests will end.

Trophies Presented To Rotary Team Champion Batter, Pitching Leader

Little Leaguers ended their baseball season Friday night with the Rotary team winning the most games.

Charles Lutz, Belle Glade Lions team was the batting champion with an average of 459 and Ronnie Hudspeth, South Bay Lions, was the pitching leader. He was credited with pitching a no hitter, no run game, facing only 19 players. This is the first time in the history of the Glades Little League that a pitcher has had a no hit game.

James Baldwin, president of Little League, was master of ceremonies and with the assistance of B. G. Smith, secretary, presented Little League Medallions to members of the winning Rotary team. The trophy was

B. G. City Water Over 99% Pure Despite Color

Guests at the regular Jaycee dinner meeting on Thursday, were representatives of the Belle Glade Water Department; Department Superintendent, Clarence Throop, Water Commissioner Walter Ashley, and City Manager Tom Carle.

Realizing that a city's water is one of the most valuable assets, the Jaycees are interested in helping with problems confronting the water department and the officials responsible for its maintenance.

When questioned about the present color of the city water, Mr. Throop explained that this was due to the fact that when the rainfall is heavy, water drains from the nearby fields into the rim canal around Lake Okeechobee, from which comes our water. Even though this present color gives us the reputation for having the third worst water in the United States, it is 99.2% pure and will return to its natural color when the rainfall slackens. This appearance of heavy coloring,

PROCLAMATION

WHEREAS, in the month of July 1953, there were more than 12,000 accidents with 98 persons killed and nearly 3,200 persons injured in Florida, and,

WHEREAS, this is a period when everyone is thinking of the brotherhood of man and the true spirit of independence and what it means, and the joy of living, and,

WHEREAS, the Lord did not intend that this should be a period of bloodshed and the unnecessary waste of life, through reckless, careless and drunken drivers and careless and drunken pedestrains, and,

WHEREAS, the Florida Safety Council is calling on all citizens, American Legion Posts, veterans organizations, civic clubs, enforcement officers and others and is trying to make this month an occasion of solemnity and dignity in memory of those who have, and who are today paying the Supreme Sacrifice to reckless and careless driving.

NOW, THEREFORE, I Harold J. Rabin, Mayor of the city of Belle Glade, Fla., designate the month of July as a safe and careful month, urging that drivers and pedestrians be careful and cooperate.

Signed, Harold J. Rabin, Mayor.

WELCOME TO NEW READERS!

As a direct result of the Belle Glade Herald's recent intensive subscription campaign hundreds of new readers have been added to our list. We heartily welcome each and every one.

The campaign was an outstanding success — the most successful drive of its kind ever promoted in this section of Florida. More than twenty energetic local men and women participated and canvassed every nook and crany of the trading area. The results far exceeded our fondest expectations.

The Belle Glade Herald now offers advertisers the best opportunity they ever had to reach buyers for their wares. No other medium comes within striking distance of covering the field so thoroughly.

We wish to thank each and every contestant for his and her untiring efforts as well as the public which responded so generously. It is now up to us to give you the best possible newspaper and we mean to dedicate our efforts to that end.

The campaign was conducted by the Liner Circulation Service of Chicago with Mr. Robert W. McKay in charge. We want to commend Mr. McKay for his unceasing efforts and fair-dealing and wish him well wherever he may go.

WORK STARTED

during the construction of the new bridge.

According to B. M. Woolbright, Florida State Road Dept., District Engineer, the bridge will be constructed of reinforced concrete with a life span in center. The bridge will be 28 ft. wide and 4 ft. side walk on either side.

The present one-way draw bridge has constituted a traffic hazard for many years and has been the scene of numerous accidents. Fortunately there have been no fatalities at this bridge but much destruction of vehicles and a constant repair expense to the SRD.

The contract has also been let for the bridge over the Miami Canal on U. S. Highway No. 27 and work will be started shortly, according to advices reaching here. A survey for the detour has been made. Many accidents and fatalities have occurred there.

Case Enters Diesel Field

It is casting no orchids to admit that the entire industry recognizes the sort of job done by Case engineers when they completed the Case "500" Diesel engine unit for tractor use. Now they have seen fit to put this same engine on the market as a power unit for pumping stations.

This is the first power unit the Case Company has ever built nad was designed 100 percent for function and service without any apparent compromises for expediency, which loom inevitably when designing against a tight cost sheet. No competitive emergency was underwal during the designing of this machine, permitting ample field testing before production, which eliminates pressure-manufacturing mistakes which show up in the field at a cost in grief to user and dealer which in the old days never was permitted to occur.

Dependable, low-cost power is available with the Model 509 Diesel Engine unit. Money-saving features of Diesel operation plus new developments increase the smooth running efficiency and endurance.

The high internal pressures and forces exerted in diesel operation are absorbed in this model by building in extra strength nd ruggedness. Seven large main bearings carry the heavy crankshaft.

Case "Powercel" combustion assures efficient burning of fuel and more uniform delivery of power to the piston. Smooth prolonged combustion results because sudden peak pressures at the beginning of the power stroke are eliminated.

Six point protection is provided against one of the main causes of diesel trouble, dirt in the fuel . . . fuel tank cap breather filter, fine mesh filter screen and water trap as well as three stages of filtering.

The fual injection pump is exclusively designed and calibrated for the Model 509 Engine. It accurately meters and distributes fuel to the injectors.

Starting is as easy as with a gasoline engine. Touch the button and start on diesel fuel. The dependable 12-volt electric starting system does the job.

Get the full story as to how the Case Model 509 Diesel Engine Unit can cut costs on your Case Dealer.

NEWS OF GLADES BOYS

(Continued from Page One)

around to see some of the sights here in Europe and the beautiful country of England. I looked up some people that my sister met there during her tour of duty during the last war. They were wonderful to me, and we had a very good time talking about the old times. Regardless of what people or other soldiers might say, I have found the English a wonderful bunch of people.

I cannot help but think that this has been a wonderful chance for me to make many childhood dreams become a reality. Seeing the places that I had studied about all through those school years has given me a much wider knowledge about life in general. Thus far I have been in about six countries nd hope to get to all of them that the Gov. will allow. One good thing about being in the service you can take advantage of the air travel offered by the Air Force; using money that you need to pick up little things which will remind you of these places in latter years.

I feel that I will never leave home when I once get back; so while I'm here, you can bet I'm going to take advantage of this opportunity. I know that my first attitude was to save as much money as I could for that new Ford I wanted to buy when I returned; but on second thought I came to the idea that I wouldn't want to be setting in front of the fireplace, warming my toes, smoking my pipe, thinking about these old times, and then regret that I didn't see this or that.

Well we are having that nice summer weather that we all looked forward to last winter; but being located in the northern part of Germany, we sure don't have that typical Florida weather. The days are in the 70's and the nights are wonderful for that old sack time, which every soldier thinks is the greatest time in his day.

Where we are . . There aren't any other soldiers near, giving us a chance to meet some of the true German people. They have taken us into their homes; this has given us a chance to really get to know these people. I will always remember these good times and the wonderful hospitality which they have extended to us. You can not explain in words just what this means to you, but it gives you that feeling of home life that you have a tendency to forget.

Well I haven't said much but I want to let you know that I often think of the folks there in Belle Glade and really appreciate the Terald.

I want you also to know that your column: "News of the Services" is really terrific. Many of the boys that are in the service and who I went to school with, I'd never have any idea as to their whereabouts if it wasn't for your paper.

Well it's growing late and I like that bed just as well as the next guy so maybe I better get some of that shut eye too. Give my regards to Mr. Aspey and all the other members who make the publication of the Herald possible.

Thanks again.

Don't be surprised if you don't find anyone at home when you call on your friends this summer. From all indications, that old summer gypsy urge will be working overtime this year. The American Automobile Association says that 66 million Americans will be stirring up the dust along the nation's highways.

Seems like we never did get completely settled after our ancestors came to the New World, and later generations climbed into covered wagons and headed West. As the song has it, we're as restless as a willow in a windstorm . . . especially in the summer months. We have more good roads and more cars than you'll find anywhere is the world. There's plenty to see and freedom to travel. So have fun . . . but keep it safe, and take it easy.

Somebody remarked that 40,000 barns could be painted with the lipstick that American women use every year. Maybe so, but it sounds kind of messy. Speaking of lipsticks, you'll find a complete choice of shades in fine lipsticks for a more practical purpose — your own beautification — in our toiletries and cosmetics department. Choose from Revlon, Dorthy Gray, Lentheric and Yardley, Elizabeth Arden, Helena Rubenstein, Tussy, Cara Nome, cosmetics at GLADES DRUG STORE.

THEY say he married her because her uncle left her a million dollars. But he claims he would have married her no matter who left it to her.

A sure source of happiness is the memory of persons you didn't marry.

There must be idealists in the world. We must have dreamers else nothing would be accomplished by the doers. Practical people all over the world keep the wheels going in all fields, but the dreamers are the ones who have enough imagination to conceive of the wheel in the first place.—Leah Jane Smith.

Why must forbearance Be limited to parents?

Twilight is a thing that many people in small towns cherish. To them it is tangible, real, something they can almost touch. They enjoy it from rockers creaking on side porches, from the backsteps of frame houses, from the garden, from a lawnchair placed beneath a rustling pear tree. They feel it as they talk quietly of the little but momentous items of the day; they taste it as they reflect on what will come tomorrow, they know it for a friendly ally who will brush their very souls with restfulness.—Raymond Swank in Duncannon (Pa.) Record.

Pity the home where the ringing of the school bell has ceased to matter. In a family of growing children it is the stabilizing regulator for the entire household. Meals are on time, clothes are in readiness and a semblance of order established because of its regular clanging. And then one day it doesn't matter—you hear it, and all at once it brings a lump to your throat, for there is no mad scramble for books and raincoats, no hurried good-bye kisses, no slamming doors. Just peace and quiet—the peace you used to long for and have found to be an empty thing.—Mildred Keeshan in Junction City (Kan.) Republic.

Use of the word "we" indicates one had become a mate, ending loneliness and taking on a family, or become an editor, ending leisure and taking on the cockeyed world. — Cranston (R. I.) Herald.

FLA. VETERAN GETS JOB AS MARINE RECRUITER

Major William F. Lane, 34, son of Mr. and Mrs. S. M. Lane, Albertville, Ala., was recently named officer-in-charge of Marine Corps recruiting in Florida.

Major Lane assumes his present duties following service in Korea for which he was awarded the Bronze Star Medal. He served there as executive officer with the Third Battalion, Seventh Regiment, First Marine Division.

The new recruiting officer attended Gadsen High School, Gadsen, Alabama before signing up with the Marines. A former enlisted man, Major Lane joined the Corps in November, 1939, soon after war broke out in Europe. He was commissioned a second lieutenant in March, 1943, while serving in the South Pacific. After a brief stateside rest he was ordered overseas again in 1944 for more island hopping against the Japanese.

FOURTH OF JULY CELEBRATION AT PAHOKEE MONDAY

A spectacular display of fireworks will climax the July 4 celebration in Pahokee Monday at 8:15 pm on the Pahokee lake front, with other events starting in the afternoon.

The afternoon's entertainment will feature a Pony League baseball game starting at 1 pm in the city park, with free boat rides and other boating activities starting at 2 pm. There will be a public barbecue at the lake front from 4 pm to 7 pm. All entertainment free except the barbecue.

The Independence Day program is sponsored by local civic clubs and organizations who request that all business houses close Monday in observance of the holiday.

MAJORITY OF STORES TO CLOSE JULY 5

There will be no mail delivery, on Monday, July 5, according to Mrs. Rosa Nash, assistant post Mistress. Most all the business places and merchants are closing on that day in addition to banks and the City Hall.

Several merchants are closing Monday through Wednesday.

MRS. JONES HOSTESS TO GARDEN STUDY CLUB

Mrs. Luther Jones was hostess to the Garden Study Club last Friday. The group studied "arrangements". There were 18 members present.

RELIEF FOR WATER

(Continued from Page One)

Commission had resulted in a general "buck passing" and blaming of other folks for the high water.

Our two Circuit Judges also headed a group appearing before the Commission asking for additional space, office and storage, for the various County offices.

The suggestion was made that the tax levy be increased in order to care for the much needed space. One mill added to the capital improvement fund for three years, together with the amount already in the budget, would produce about $1 million within three years.

TAKE BLUE ROADS TO AVOID HEAVY TRAFFIC

Glen P. Woodard, Jr. of the Florida Patroleum Industries Committee advises you to take a driving tip from smart motorists and use the "blue roads" shown on most maps for over-the-Fourth trips.

Most folks think these routes are poor roads, but actually says Mr. Woodard, "they are well paved state highways that are usually just as good as the ones marked in red."

Also watch expert drivers and follow the example.

"You can spot expert drivers by looking for five characteristics (1) smooth driving, (2) perfect timing, (3) constant control, (4) good judgment and (5) respect for traffic laws.

CARS COLLIDE AT SHAWANO FARMS

Four person received injuries Tuesday afternoon about 4:30 pm according to Patrolman J. P. Bertrand, when a car driven by Mrs. Margery Kruse failed to stop at right-of-way at Shawano Farms, and crashed head on into car driven by Bransford Gibbs, employee of Allegheny Asphalt Co., who was doing construction work at the farm.

Gibbs had possible chest injuries and Mrs. Kruse suffered lacerations of knee. Her son, Timothy 5, had lacerations of head and colored maid, Minna Lee Smith received bruises in head and leg lacerations.

Mrs. Kruse was charged with violation of right-of-way.

PUBLIC WELFARE ACTIVE THROUGHOUT PB COUNTY

Thomas E. Penick, Chairman of District Board No. 10 of the State Department of Public Welfare, reports that in Palm Beach County 3,046 persons were assisted in the three categories of public assistance for the month of May.

A total of 1,497 persons received Old Age Assistance to the amount of $66,470.00. 77 persons received Aid to the Blind, totaling $3,810.00. 378 families, representing 1,162 children received Aid to Dependent Children in the amount of $20,594.50.

In addition, 62 children received care during the month, 37 or more were in foster homes. The total costs for these child-welfare services was $1,914.04.

There were 9 adoption petitions studied for the Circuit Court. These are children placed in homes independent of services through a licensed child placement agency, and the Welfare Board is responsible according to law to make these reports to the Court.

The other Palm Beach County Board members are: Mrs. Helen R. Tedder, West Palm Beach, Mrs. Grady H. Brantley, Lake Worth, J. B. Evans, Delray Beach and Mrs. Doris Sasser, Pahokee.

DAISY M. MURRELL ATTENDS NATIONAL MEETING OF PTA

The Annual Convention of the National Congress of Colored Parents and Teachers, held its 28th Session at Langston University, Langston, Oklahoma, June 20-24, 1954.

On Sunday evening a dinner meeting at the school dining room honoring the State Presidents and Life Members was held. Mrs. Odessa McKinney, National Vice President — Mistress of Ceremonies.

Welcome remarks — Dr. G. L. Harrison, President Langston University.

His Excellency, the Honorable Johnston Murray, Governor of the State of Oklahoma was guest speaker. The Governor stressed the importance of ALL people discussing together the current problems of today.

Welcome remarks — to the State of Oklahoma — Mrs. Willie Murray, wife of the Governor.

Welcome remarks—Dr. Windham, President Oklahoma State College.

Life Membership Pins were presented by the National President, Mrs. Charles L. Williams, to nine persons who have rendered outstanding service in Parent-Teacher work in the past year. States honored were Arkansas, Kansas, Kentucky, Virginia, Maryland, North Carolina, and Oklahoma.

On Monday morning June 21 the Convention was officially opened by the National President, Mrs. Charles L. Williams. Convention Theme, "New Responsobilities For A Changing Society". Hi-lights of the convention were — excerpts from addresses from outstanding speakers, such as, the National President, Mrs. Wililams, who stressed the need of creating an atmosphere in the home and school where people can think reflectively, become willing to accept constructive criticism, speak up when justice is not given, initiating desirable activities in Communities and participating in Inter-group Activites.

Mrs. Ruth Caston Mueller, Ass't. Republican National Committee, pointed out four vital points — 1. Know Thyself. 2. Work on our minds and spirit to overcome our limitations. 3. Be capable of self criticism, be sympathetic and be able to participate. 4. Lift our sights, it is time for integration.

Dr. G. L. Harrison, President Langston University, stated that in the process of integration, Parent - Teacher Associations might take the following steps —1. Invite people of other races to attend our local meetings. 2. Let the people become acquainted with us. 3. Demonstrate through our living that we have respect for ourselves.

A Youth Panel was presented entitled, "The Challenge of Our Times". Their presentation was dynamic, and summarized that Faith in God creates love, whereby the problems of Youth, War and World can be solved.

A clinic session was informative, the study and discusssion —1. Cooperation with All Health Agencies. 2. Raising the Standards of Home Life. 3. Providing leisure time activities.

Trophy Awards were given for 10 percent increase of membership and more States to receive these Awards. 1. Texas. 2,. Virginia. 3. Kentucky.

Also Founders Day presentations were given the States that reported $100.00 and more. They were Tennessee, Missouri, Kentucky, West Virginia, Oklahoma, Kansas, North Carolina, District of Columbia, Delaware and Texas.

Much attention was given to Inter-group Education. A full reports was given on problems and progress by Dr. D. Cannon Partridge, National Chairman on Inter-group Relations.

Eighteen States and the District of Columbia were represented at this Convention. Persons from Florida that attended were — Mrs. Charles L. Williams, National President, Miami — Mrs. D. B. Sanders, State Pre sident, St. Augustine — Mrs. Daisy M. Murrell, Belle Glade — Mrs. Mary L. Washington, Jacksonville — Mrs. M. E. Carter, Jacksonville.

The Convention was climaxed with a tour of Oklahoma City sponsored by the Oklahoma City PTA Council. Places visited were The Temple for Ancient and Accepted Scottish Rite of Free Masonry, The Capital of Oklahoma and the Governor's Mansion, where all delegates received a hearty welcome and hand shake by Governor Johnston Murray.

The 29th Sessi on of the National Congress for Colored Parents and Teachers will meet in Texas, June 1955.

NEW BURDINE'S TO OPEN IN JULY

During the latter part of July, Burdine's will open its newest store — the largest, most complete department store in the history of the Palm Beaches, and one of the most modern retail stores in the State of Florida. This marks the establishment of the fourth of the Burdine's stores, all of which stress the Florida mode of living. Since 1898 when the first Burdine's store was founded by William M. Burdine in Bartow, Florida, there has been an ever-increasing demand for Burdine's stores to serve South Florida.

Interior decoration in muted tones of blue, rose, green and yellow set the keynote for SUNSHINE FASHIONS featured by Burdine's. The soft, pastel shades are combined with walnut, oak and wormwood, to lend a quiet elegance to a structure designed to offer the maximum in shopper comfort and convenience.

Of much interest to customers who prefer to do their shopping under one roof is the fact that the new Burdine's will be a complete department store, with a total floor area over five times that of the present location.

Located on the first floor will be cosmetics, jewelry, handbags, neckwear, and a complete Women's Sportswear Department. The entire north section of the first floor is given over to the Men's Department, with the additional attraction of a "FOR MEN ONLY" GRILLE.

Wide, brightly-lighted escalators lead to the second floor. Here are located: Children's Wear, Lingerie, Budget and Better Ready-to-Wear, the Maternity Shop, a luxurious lounge, and the Beauty Solon, staffed with expertly trained stylists.

The third floor is devoted to the Home Furnishings Division and here the Hibiscus Tearoom is located with a seating capacity of 238 persons. Informal modelling will be featured during luncheon hours. The new third floor Home Furnishings Division comprises the following merchandise: Furniture, Draperies, Carpets, China, Silverware, Glassware, Housewares and an Interior Decorating Department.

A much-needed feature of today's department store operation — store door parking by attendants — will accommodate in excess of 200 cars — thereby eliminating the oft-present parking problem.

The absence of windows above street level — there is but one in the entire structure, located in the Tearoom — permits better lighting and is a boon to the air-coling system. Color-corrected light, incandescent and fluorescent, reveal the merchandise in all its beauty and appeal. The important advantage of the new air-conditioning system is that it provides "Zone treatment" completely assuring air-conditioning comfort for customers in all part of the store.

Added interior beauty is obtained from open, unobstructed floor space which aids the customer in the selection of merchandise and permits easy passage through the aisles.

Everything for the home, as well as for the family, may be found at the new Burdine's, West Palm Beach.

B. G. CITY WATER

(Continued from Page One)

about the same time each year, has kept the water department from winning an award several times. The color could be removed with chemicals but the resulting water would be unfit for consumption. This problem has been tackled by nationally known chemists with no success. These chemists include Infilco Water Works Engineers of Chicago, Dr. A. P. Black a water consulting engineer, and Baker and Wooten water experts from Ohio.

There is a possibility that the water taste and color could be improved if the supply were pumped in from a point out in the lake, rather than from the canal. Cost for such an installation would be approximately $300,000.00. The water department now has an outstanding bond of $228,000.00 on which payments are $1800.00 per month. These monthly payments will have to be increased to meet the bond expiration in 1973. There is a surplus of $42,000.00 on hand to handle maintenance and emergencies. Mr. Thorpe hopes that when the surplus permits, a settling tank can be installed at a cost of approximately $50,000.00. Due to these circumstances it looks as though the water will probably retain its color until the slackening of rainfall permits or until chemicals are developed that will be satisfactory.

Other than Superintendent Throupe, the water department has four operators and three distribution men. Two of the operators hold a class B rating and the other two are working for this rate. Constant check is made on the water condition through the facilities of a laboratory in the plant. A weekly report is made to the city manager and thirteen water samples are submitted to the State Health Department each month.

There are seventy-five miles of water mains within the city limits to be maintained as well as 27 electric motors from 1/32 horse power to 50 horse power. There is one diesel engine, and six pumps with capacity ratings from 500 gallons per minute to 5000 gallons per minute.

The present cost of chemical per day is $48.75 and the selling price of water is $2.00 for the first 2500 gallons. Each additional 1000 gallons over minimum is 60c per thousand with a graduated scale down to 30c per 1000 gallons. The water department is making a profit, however it seems as though no large project can be started toward the betterment until the present indebtedness is liquidated; yet equipment and expanded mains are needed.

There is a problem that needs attention.

The Star Spangled Banner

Arrest of drunken British soldiers led to writing of National Anthem

There were no linotype machines. As the printer set each piece of type by hand he started humming the melody of an old English drinking song. It was called "Anacreon in Heaven" and it seemed to just fit the poem he was setting.

On the day before Baltimore's lawyer Francis Scott Key had gone out in Chesapeake Bay in the cartel ship "Minden" with a letter to the British admiral asking the release of American citizen Dr. William Beanes. The Maryland physician was being detained for being instrumental in the arrest of a bunch of drunk English soldiers. Though lawyer Key was treated courteously, his mission was ill-timed The British were about to bombard Baltimore. So they told lawyer Key he could have his doctor friend but he would have to wait until they bombed the daylights out of Key's home town.

All night long Francis Scott Key watcher what he thought was the destruction of Baltimore and Fort McHenry. But the first thing he saw when dawn broke through the mist that morning of Aug. 15, 1814, was the huge American flag still defiantly floating over the fort two miles away. In a burst of inspiration he took the letter from his pocket, turned it over and started writing.

Released and rowed ashore, Key edited his poem, wrote over it "Defense of Fort McHenry" and hurried to the printer. That afternoon it was circulated on hand-bills all over town. Under the title the printer had set a line suggesting the tune "Anacreon in Heaven" and that night it was sung on the stage of the Holliday Street Theater. Vocalists say it's the hardest tune in the book to sing but for 117 years nobody was able to get away with changing it and, in 1931, Congress officially proclaimed as the National Anthem of the United States . . .

Oh, say, can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say, does that Star-Spangled Banner yet wave
O'er the land of the free, and the home of the brave.

On the shore, dimly seen thro' the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected, now shines on the stream,
'Tis the Star-Spangled Banner; oh, long may it wave
O'er the land of the free, and the home of the brave.

And where is that band, who so vauntingly swore
That the havoc of war and the battle's confusion,
A home and a country should leave us no more?
Their blood has washed out their foul footsteps' polution,
No refuge save the hireling and slave
From the terror of flight or the gloom of the grave;
And the Star-Spangled Banner in triumph doth wave
O'er the land of the free, and the home of the brave.

Oh, thus be it ever when free men shall stand
Between their loved homes and the war's desolation;
Blest with victory and peace, may the Heaven-rescued land
Praise the Power that hath made and preserved us a nation!
Then conquer we must, when our cause it is just;
And this be our motto: "In God is our trust!"
And the Star-Spangled Banner in triumph shall wave
O'er the land of the free, and the home of the brave.

FIRST BAPTIST CHURCH NEWS

Some forty young people spent an enjoyable half hour at the fellowship period Sunday night after church. Bobby Kent had charge of the humorous program of "Truth or Consequences". The questions were similar to this, "Who was the greatest actor in the Bible?" The correct answer is "Samson, he brought the house down!" Most of the contestants had to suffer the consequences. You should have seen Jo Margaret Parson searching the room blindfolded in an attempt to find and blow out a lighted candle! After a short devotional talk by Herb Gladden from Colombia, S. C., the group ate cookies and drank pink lemonade.

FLASH! The newly organized Cherub Choir had its first rehearsal Wednesday afternoon at 2:30. A good group of youngsters, age six to eight, met in the church with their "Choir Mothers", and learned several new songs and choruses. This choir is another step in the direction of a complete graded choir program which will be organized this summer. A carol choir of junior age kids is the next step planned by Lamar Willis, summer worker in the church.

GONE! We miss twelve intermediates and young people who are attending the East Coast Baptist Assembly this week in Fort Pierce. They will experience ten days of valuable training in study courses, music and inspirational messages. Those attending this assembly are Sara Ann Norman, Suzanne and Molly Forsee, Mary Belle Schlechter, Elizabeth Barber, Eunice McAllister, Brenda Kesler, Sandra Gove, Jeanette Waddell, Francis Sloan and Leo James. Liska Humphries will be counselor for the group.

How Big Is My Church? Discussed By Juniors At First Baptist SS

The Sunday morning discuscussion on "How Big Is My Church?", concluded a series of programs this month on the theme of "Getting Acquainted wtih My Church". This program was attended by 40 juniors and teachers. The actual size of the First Baptist Church and the number of members were discussed. Recognition was given Paula Parson and Judy Farmer as juniors who had traveled the greatest distance to come to Sunday School. Neal Livingston was recognized as one who had traveled the farthest from home on a vacation. The Juniors stated that through prayers and offerings they traveled to faraway places. In Mark 16-15 the Juniors found the words Jesus spoke to tell us how big our church should be "—Go ye into all the world and preach the gospel to every creature". A display of a small church with colored strings attached leading to a map of the world called attention to the parts of the world where Baptist missionaries are located. The theme song for the month "Stand Up, Stand Up, for Jesus" concluded the program. Susan Clark assisted Mrs. Bamford at the piano. Tommy Simmons was usher for the morning.

Ushers for the quarter July, August and September will be chosen by the teacher from the 9 year boys class. The weekly banner went to the class of Mr. Waddell's class of 10 year boys. These boys have 8 enrolled in their class and all were present. Second with the highest grade was Mrs. Jean Cross's class of 9 year boys. A party for the Juniors will be given July 5 at 6:00 pm beginning with a picnic and wiener roast at the park. Later everyone will attend the annual fireworks display at Pahokee at 8:00 pm.

It is good for us to think that no grace or blessing is truly ours till we are aware that God has blessed someone else with it through us.

OUTLINE FOR THE INTERNATIONAL UNIFORM SUNDAY SCHOOL LESSON — July 4, 1954

LESSON TOPIC — "Jesus, Our Example And Lord"

SCRIPTURE LESSON — Luke 2:40-52

By Rev. Robert Ford

INTRODUCTION:

The lessons for the next three months will deal with the theme "Growth in Christian Living." The presupposition of all these lessons is that Christians are expected to grow continuously in Christian Faith, Character, and Life, and that there are means which God has provided for this growth.

Today's lesson challenges us to Christian Growth by reminding us of the well-rounded development of Jesus, who is our Example and our Lord.

I. The Growth of Jesus
   - A. From Infancy to Age Twelve — Luke 2:40-51
   - B. From Age Twelve to Age Thirty — Luke 2:52
     1. Wisdom
     2. Stature
     3. Favor with man
     4. Favor with God

II. Christ Our Example and Lord

Salvation is not by imitation of Christ but by trustful surrender to Him. Having done this then comes the imitation; John tells us "to walk even as He walked", Paul enjoins us to imitate him even as he imitated Christ.

CONCLUSION:

To imitate Christ is impossible for the unregenerated man. First we must see in Christ a vision of what life ought to be; and the vision produces despair of self... Then we turn to Christ for cleansing and renewal. When we are in Christ and Christ is in us, there follows the Christlike life.
